EXPERT GROUP

The below group of experts in sexual and reproductive health and rights designed the questions and structures for the Atlas.

EXPERTS:
(in alphabetical order)
Dr Carlos Calhaz-Jorge, ESHRE
Hon. Morgana Daniele, MP (Lithuania)
Neil Datta, EPF
Anita Fincham, Fertility Europe
Veerle Goossens, ESHRE
Dr Cristina Magli, ESHRE
Dr Gitau Mburu, WHO

TIME FOR A EUROPEAN GAME-CHANGING MOVEMENT ON INFERTILITY

In the European Union alone **25 million** citizens face infertility

Infertility affects **1 in 6 couples** worldwide

WE CALL ON POLICY MAKERS TO:

- 1. Recognise** the right to try to have a child as a universal right across Europe;
- 2. Ensure** equal access to safe and efficient fertility treatments;
- 3. Provide** public funding for all lines of fertility treatments;
- 4. Engage** the public sector in providing better information about fertility and infertility;
- 5. Implement** communication campaigns to remove the stigma associated with infertility.

INTERNATIONAL GUIDELINES

EUROPEAN PARLIAMENT

Notes that infertility is a medical condition recognised by World Health Organization that can have severe effects such as depression; points out that infertility is on the increase and now occurs in about 15 % of couples; calls on the Member States, therefore, to ensure the right of couples to universal access to infertility treatment¹.

WORLD HEALTH ORGANISATION

Government policies could mitigate the many inequities in access to safe and effective fertility care².
